History – Year 3

Grove School

Autumn 2 – Travels in time: Changes in Britain from the Stone Age to the Iron Age

In history I have already learnt:

To use photographs, pictures and images of paintings to find out about the past.
To place events from the past on a timeline.
To say why people in the past did what they did.
To consider different viewpoints about famous people in the past.

Old, new, past, present, same, different
Discovered, treasures
Conditions, important

Finding out about the past

I can use **images of cave paintings, archaeological sites and virtual tours of sites** to help me understand how historians use historical sources to form ideas about how people lived in the Stone Age.

Understanding time

I can place the Stone Age, Bronze Age and Iron Age on a timeline, over 2.5 million years ago (Stone Age)
I understand what BC means.

Changes in the past

I can explain what the tools were used in the Stone Age, Bronze Age and Iron Age and how they changed.

Why did these things happen?

I can give reasons why people may have built Stonehenge.

Why people and things that happened in the past are important

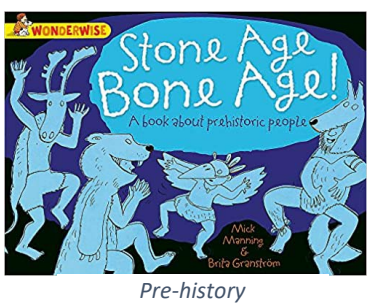

I can talk about what burial sites can tell a historian.
I know what a hill fort is and why they were important
